

# Bourne Stormers Model Club

ISSUE 106

JULY 2018

Right now the sun is shining, it's not too windy and it's nice and warm, some may say hot, but the phrase 'too hot' must never be used in the UK. Since last month Jim and Malcolm have built a couple more benches for which we thank them, and the new 'topper' mower should arrive next week. Jim is also going to look at the corrosion damage to the container, after which a working party may be required to do a bit of a refurb. Malcolm's bionic knee has been fitted and we wish him a rapid recovery, just in time for next year's London Marathon.

For those who didn't know, early last month we had a visitor to the Club field. Apparently he had been on the run for about a week but was recaptured shortly after - bacon butty anyone?. Show season is now upon us and a quickly drawn up shopping list and a lack of photos for this Newsletter was enough of a reason to visit this year's Wings'n'Wheels. I managed to complete my list and only bought a small model, so I'm still welcome in my house.

The fugitive pig. Where's Tommy  
Lee Jones when you need him?

Wings'n' Wheels 2018. The triplane was 1/3rd scale, the Mustang was real  
and I think R2D2 found himself some new LiPo's.

It's not just aircraft, maybe I should  
take my yacht next time.

Remember the PANIC biplane? Did you  
know it was back in ARTF form?  
They're just as insane as ever.

More plans were suggested for our next Club build. The general format is an aerobatic capable model of about 50" span powered by a .40ish (or electric equivalent) motor. The object is to end up with a decent 'B' Cert capable model so the dimensions are 'adjustable'. We now have a - not very - short list to make a choice from. The idea is for you to look at the following list, go to [outerzone.co.uk](http://outerzone.co.uk) and look up the plans, then e-mail this Newsletter with your vote, aircraft with the most votes wins. Here's the list:

Snark	Bingo	Cosmic Coyote
Me 109	Contender	Cloud Dancer 40 or 60
Saker	Seafury	Blue Angel 40SR
Pegasus	Aeroflash	

For the final snippets, the BMFA AGM is coming up if you wish to attend, details on the BMFA website.

We have received a flyer from the Newark Indoor Flying club inviting us to an open fly-in evening at Newark Showground on Tuesday 17th July from 6:30pm. Visit [www.nifc.club](http://www.nifc.club) for details.

## Upcoming Events

### July 2018

Wed 4th

Meeting at the Wishing Well.
