

BourneStormers Model Club

ISSUE 110

NOVEMBER 2018

November is upon us so, as Winter comes on, will you carry on flying whilst trying to avoid frostbite, disappear into your building shed or hibernate until March? (It could be a complicated mix of all three, but trying to work that out gives me a headache so I won't). Firstly a big reminder about the AGM next month:-

>>>>> Wednesday 5th December - Club AGM <<<<<

There, that should be big enough! Come along and have some input in the way your Club is run. As usual there should be a light buffet available during the evening.

You may or may not know that, recently the BMFA has contracted out it's membership management to 'Go Membership'. Some Club members (including me) have received e-mails about the launch of the new system and information for logging on to it, but only if the BMFA already had your e-mail address. For those used to such things, it wasn't difficult to sort out a password and check details. My BMFA membership is set up through RAFMAA so I had to add BourneStormers as a Club I belonged to, again, not difficult. Finally I downloaded a copy of my current membership card, which is shown here. One thing though, if you go onto the site and notice the Club location is wrong, please don't update it. There have been reports of unscrupulous individuals using it as a guide to pinch things from clubs.

This is the membership card you will get from the new BMFA Membership Management website.

Connected with this new system there may be a change in Club e-mail addresses soon, including the e-mail for this Newsletter so please keep your eyes peeled!

Another Spotlight Model this month, this time from Malcolm. The model is of the one and only Dalotel DM-165 (I say 'one and only', because only one was built). It is about 1:6th scale with a wingspan of 57". The model has electric retracts and is powered by an SK3-3548 motor running on 4 cells, producing about

650 watts. It is, of course, an aerobatic aircraft and is capable of just about every manoeuvre in anybody's book, as long as the retracts survive our field! Thanks Malcolm.

Also, here's a taster of Eddie's new model made from a couple of 'ex' Seagulls. The wingspan is in the 10 ft category.

You've heard of 'Spot the Ball', here's 'Spot the Problem'. A heavy 'landing' during a quad race caused this little issue.

Finally, a trip to the recent swapmeet at Buckminster saw me bring home two more models to build. I now have four aircraft and a helicopter awaiting my attention as well as learning to program a Taranis transmitter, should keep me busy for a while!

Upcoming Events

November 2018

Wed 7th

Meeting at the Wishing Well.

Sun 4th

Fenland MFC Annual Swapmeet
Sutton St Edmund PE12 0LR
8am & £5 for sellers. 8:30am &
£2 for shoppers. Contact: Charlie
Cox 07547 679779

December 2018

Wed 5th

AGM at the Wishing Well.

I'll write that again just to make
sure everyone got it.

AGM at the Wishing Well.
