

Bourne Stormers Model Club

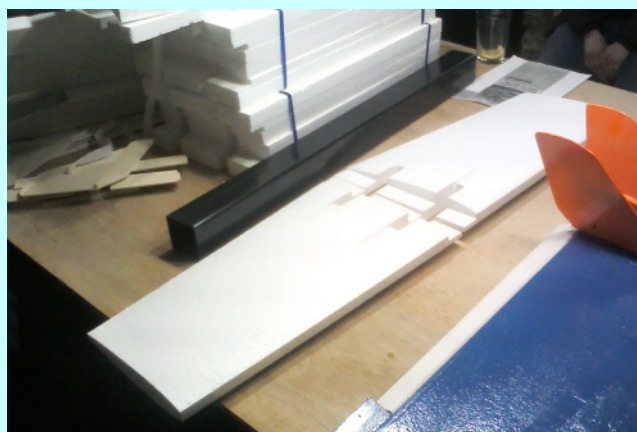

ISSUE 114

MARCH 2019

Hopefully everyone will have read the e-mail regarding the mower shed door replacement being delayed until Sunday 24th March, if not, read that last sentence again! The weather forecast for this weekend isn't good, being both wet and windy, so it was decided at the meeting that discretion was the better part of valor and that a cuppa and biscuit was probably better than having a wet door blown in your face.

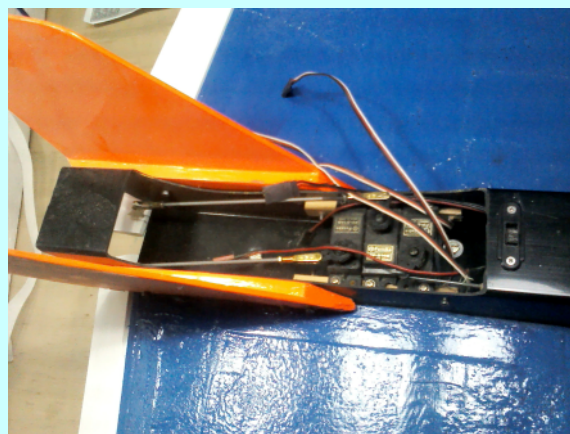

To continue our ongoing mole saga, we have had a professional catcher do the first sweep, laying down about sixty traps and accounting for a dozen moles. We are still looking at training a few more Club members to set up and check our own traps in the future - watch this space for information (or come along to the Club meetings if you can).

The meeting was held in the Pool Room again, unfortunate, but, as Steve Mason had brought in some Combat Gremlin parts (foam wings, a couple of fuselages - or bits of drain pipe) and a complete model, at least we had somewhere to put them. I think all the wings went but Steve will be able to produce some more in the not too distant future if required.

The Gremlin's
component
parts.

A foam wing, a
bit of drain
pipe and a
couple of fins.

A nice simple radio installation. A template
for the fuselage shape is available.

The finished article. Ready
for a streamer out the back
and some aerial mayhem.

Our Winter Meal in February went well, we even had Christmas crackers. Many thanks to Eddie for organising it and to everyone who turned up for making it a success.

Other Club events are available, don't forget about our first BBQ of the year on Sunday 2nd June, there may some combat flying going on. Also, after the change to British Summer Time on 31st March, it is intended to rejuvenate Thursday evening flying, not just for training but all flying (even combat), so as the day stretches out, and if you can, come along.

Almost Finally, most will be aware of the new, larger no-fly zones around airfields. You'll be pleased to hear that the Club Field is unaffected but for your information here is a link to a map on the DroneSafe website detailing them.

dronesafe.uk/restrictions/

A quick snap of my FPV Diamond 600 cruising by. Just have to try it on the goggles now.

Finally, look out for the new Newsletter e-mail address, coming soon to a Contact box near here.

Upcoming Events

March 2019
