

BourneStormers Model Club

ISSUE 146

NOVEMBER 2021

With November now upon us, it's time to admit that Winter is just around the corner, with the obligatory 'eating, drinking, and watching old films on TV' festival next month. This all happens after a far more important event of course. Wednesday 1st December is the date for our Club AGM, to be held at the Wishing Well pub in Dyke. The current plan is to have some refreshments available in the shape of sausages and chips, this usually helps with the attendance. If you have any items you would like added to the agenda please let either Niall or this Newsletter know within the next couple of days. Also Committee posts are up for re-election (including Chairman) so if you would like to contribute to the running of your Club, don't be shy in coming forward.

This month's Club meeting brought forth a decision to officially buy the triple gang, sit-on, cylinder mower that Malcolm had acquired for a very reasonable price. It has already been tested out with excellent results and it's cost should be more than adequately covered by selling the yellow mower. This will mean we have a topper mower (behind the tractor) for long grass and the recently cleared area, a good mower which cuts short and has extended the 'centre patch' to the full length of the field and a brace of small hand mowers to deal with the close-in stuff.

The recent high winds have caused a couple of problems which are in the process of being rectified. One of our spare roofing sheets near the shed had to be recovered from the drain at the end of the Field, odd bits of benches have been fished out of the drain behind the Club hut and the Porta Potty by the shed has been returned to an upright position prior to a clean out. Additionally the shed roof had been repaired shortly before the last bit of high wind, so the shed still has a roof.

Malcolm's EDF
Me262 on fly past.
The real reason the
centre patch has
been extended the
full length of the
Field ???

Derek doing some
timely repairs to
the shed roof.

This month's Spotlight Model is Eddie's new Ruckus. The difference with this one is that it's the Pro-build, uncovered version, a balsa ARTC (Almost Ready To Cover) one, in place of the more usual foamy. In Eddie's case, power comes from an SC .46 which provides more than adequate power for it's 54 inch wingspan.

Final Fun Fly League Results (Two worst scores dropped).

Mark Eggleston
 Dave English
 Malcolm Styles
 Jim Johanesen
 Roger Robbins
 Simon Roberts
 Gareth Richards
 Derek Bailey
 Jon Cole
 Allan Brooks
 Steve White
 Alan Brain / Matt Hutchison.

The Fun Fly's final element of the final event of the year was, of course, Limbo. by judging the height and not using a tape, it was almost incident free - Almost, but not quite.

Hopefully, everyone should shortly be receiving an e-mail about the formation of a Club WhatsApp group for letting people know who's going to the Field. This is intended to replace our current Booking Site with a simpler and quicker system.

Finally, the Club Winter Meal has now had it's date confirmed as Saturday 29th January at the Wishing Well pub in Dyke. Menus will be forthcoming soon. Those wishing to go please let either Eddie or this Newsletter know soonest so the numbers can be sorted out.

Upcoming Events

November 2021

Wed 3rd

Club Meeting at the Wishing Well

Sun 14th

Buckminster - E2K & C32 Pylon

Racing. Practise & set up flying on Saturday. Spectators

Welcome.

December 2021
