

BourneStormers Model Club

ISSUE 157

OCTOBER 2022

Next month's Event list is looking a little sparse so this year's show season must be coming to an end. This month also sees the last Fun Fly event of the year on Sunday the 16th. The long range weather forecast says it may be windy on the day so, nearer the date, keep an eye on Facebook, WhatsApp and your e-mail, in case a general consensus agrees it's too windy and we all go to the Buckminster Swapmeet instead.

We are getting closer to our AGM at December's meeting so if you have anything for the agenda please let Niall, Steve Mason, Gareth or this Newsletter know so it can be added. Currently a 'Non Flying' Club Membership has been mentioned as a subject for discussion.

Bomb dropping has become popular recently, along with parachute dropping and a possible glider drop coming up, so, for anyone that's interested, there are now a small number of hardhats in the Club hut and, if we get a gazebo, it may need to be armoured!

It used to just be one bomb but now capacity is increasing. Lancaster or B29 anyone?

A successful parachute drop by Rog.

Just for a slight change, this month's Spotlight Model is for sale. This is Brian's SLEC/Precedent Funfly, a 54" span model that was designed for Funfly competitions a few years ago. Now it's more suitable as a sports/aerobatic model. This comes with all servos, an Overlander 3548/05 motor and a HiTec receiver if required. The price for all this is mere £120, if you are interested please contact Malcolm (or this Newsletter and I'll pass it on).

An extreme Touch & Go and this Riot is down to one main wheel, all ended well though (more or less).

Good to see Eddie back in the air again. Got to give this a trimming flight myself - a long time since I've flown i/c.

Finally, I'm sure we would all like to wish Kurt Hill good luck in his future job in Germany. I think the German for 'Landing' is 'Landung', shouldn't be too difficult!

Upcoming Events

October 2022

Wed 5th

Club Meeting at the Wishing Well
