

Bourne Stormers Model Club

ISSUE 181

OCTOBER 2024

Running a bit late again this month. I should have got this out in time to tell everyone about the Late Summer BBQ being cancelled due to the forecast of some unpleasant weather. Instead I'm hoping those that went flying had a good time in the unexpectedly dry(ish) but a bit breezy weather that Sunday brought.

There are a handful of notes from this month's Club meeting, thanks Jon, one of which is that Jon will be meeting with the Spalding Air Cadets on the 17th October to see if we can get any of them flying. Derek will be putting out a note shortly regarding our Christmas get together (you could almost call it a Christmas Meal) and a prompt reply would be appreciated to get everything booked up in time.

It's time to start thinking about the Club AGM and if you have any ideas or proposals for the agenda please let a committee member know so they can be considered. Unfortunately, due to a large increase in the cost, no food will be provided at this years AGM. Also due to the brave and diligent work of a few, the airborne terror group, known as the Wasps, have been eradicated.

Congratulations to Bob for passing his Solo test.

Not really a Spotlight Model this month, just a reminder about the 'Bloody Wonder' Club Build Event happening on the 20th October along with the last Fun Fly of the season.

Mine, just prior to it's successful test flight (if you don't count crashing it on an inverted low pass!)

Malcolm testing out the vertical take off abilities, even though he has the wrong tail.

Rog seeing how they fly with a streamer - well enough apparently.

Finally, the Club winter build has been confirmed as a Gremlin. Plans will follow shortly, as will details of obtaining the foam wing. They can be i/c or electric powered. Could be more Combat induced devastation.

Upcoming Events

Oct 2024

Wed 2nd

Club Meeting at the Wishing Well
