

BourneStormers Model Club

ISSUE 136

MARCH 2025

The start of March came with a few days of surprisingly good weather and enough people turned up on the first Sunday to take a new 'Rogues Gallery' picture for the updated Club website. Derek and Gareth have been hard at work improving the website and this has involved the BMFA changing the address slightly to 'bournestormers.bmfa.club' (although the old address still works). They were even working on it at the Club meeting, trying to get the animation working properly on iPhones and Android phones. All I can say is that it looks fine on my old fashioned computer.

There wasn't much else from this month's meeting. There has been no progression on the sale of the Field, the owner is still waiting on the Land Registry to do their bit. Our highly skilled mower technicians are going to try and get our yellow mower working again to make the Field maintenance a bit easier and there will be an update of the Flying Site Rules coming out soon. It was also mentioned that Niall was recovering after his recent health problems.

Screenshot of our updated Club website with our latest 'Rogues Gallery' picture.

Simon's been busy buying models again as this month's Spotlight Model shows. This latest one is a 60" span Pilot Lazer powered by a T-motor AM600 combo (comes with an ESC). The prop is a carbon 18x8 and there is a 6S 5000mAh LiPo providing the Watts - a whole bundle

of them. Simon has successfully test flown the model and says there is 'lots and lots of power'. Time to start practising those IMAC routines Simon !

A busy Club Field last Sunday when the sun came out and the temperature crept above 10 degrees.

Cutting the Field has started again. Many thanks go to the cutting crew. Volunteers always welcome.

Finally, with this year's FunFly events coming up, I'm open to suggestions for some new tasks to fly. Keep them simple so anyone can fly them.

Upcoming Events

Mar 2025

Wed 5th

Club AGM at the Wishing Well

Sun 2nd
